

PRESENTING CLINICAL SIGNS

History: Grade 2 murmur. Lethargy. Possible necrotic pancreas.

DATE

8/18/23

ELECTROCARDIOGRAPHIC FINDINGS

A single lead ECG is submitted for review.

PERFORMED BY:

Kelly Reschny

HR: 204 bpm
Rhythm: Sinus

Normal sinus rhythm is present throughout this recording. All complex amplitudes and intervals are within normal limits. No premature beats or conduction blocks are seen.

INTERPRETED BY

Keith Blass, DVM,
MS, DACVIM
(Cardiology)

ASSESSMENT/RECOMMENDATIONS

Normal ECG

Kitzafrass's ECG demonstrates no abnormalities. As such, no reason for his lethargy is appreciated in the recording.

PATIENT

Kitzafrass General

An echocardiogram is recommended to further evaluate Kitzafrass's murmur. If not possible, thoracic radiographs and/or an NT-proBNP level are recommended.

No therapy is recommended based on Kitzafrass's ECG.

SPECIES

Feline

A recheck ECG is recommended if new physical exam and/or clinical abnormalities suggestive of the presence of an arrhythmia develop.

BREED

DSH

The information and recommendations provided are based on the images presented by the referring veterinarian. No evaluation can be communicated regarding pathology that was not visible in the image/video clips provided.
