DABVP (Canine &
Feline), Cert. IVUSS

IMAGING PERFORMED BY

Jenn

HOSPITAL NAME

Rockaway AH

REFERRING VET

Dr. Maniar

INVOICE

36776

DATE

12/8/25

PRESENTING CLINICAL SIGNS

History: recheck from 12/6 gastric fb.

LIMITED ULTRASONOGRAPHIC EXAMINATION

The **stomach** in this patient was largely empty. Some minor residual fundic soft shadowing material was noted. This may represent gas or similar, yet no obstructive pattern was noted. This is significantly reduced in acoustic shadowing and presence compared to the prior sonogram. The small intestine and colon were unremarkable.

ULTRASONOGRAPHIC FINDINGS

- Largely emptied stomach and small intestine- suspect grass or similar transit.

INTERPRETATION OF THE FINDINGS & FURTHER RECOMMENDATIONS

Medical management is warranted. If clinical signs persist, recheck sonogram in one week.

The information and recommendations provided are based on the images presented by the referring veterinarian/sonographer. No evaluation can be communicated regarding pathology that was not visible in the image/video clips provided.

Thank you for this referral. If the clinical or image interpretation does not parallel your findings or if I can be of any further assistance please contact me.
