

## PATIENT

Bodie Fitzsimmons

## SPECIES

Canine

## BREED

Labrador Retriever

## SEX

Neutered

## AGE

3Y, 6M

## WEIGHT

70.6lbs

## INTERPRETED BY

Nele Eley (Ondreka),  
DVM Dr. med. vet.,  
DipECVDI

## IMAGING PERFORMED BY

GC/MF

## HOSPITAL NAME

The Pet Hospital of  
Stratford

## REFERRING VET

Dr. Robert Bashkin

## INVOICE

72665

## DATE

11-18-25

## PRESENTING CLINICAL SIGNS

Bodie presents for vomiting and diarrhea that started at 6am this morning. Since then, Bodie has vomited about 6 times - owner has seen bile, food, water, and grass. No pain on palpation. No hx of indiscriminate eating. He is lethargic and just ADR in general.

## RADIOGRAPHIC STUDY OF THE ABDOMEN

Right/left lateral and dorsoventral views of the abdomen totaling 4 images available for review.

## RADIOGRAPHIC FINDINGS

The stomach is mostly empty except for a small amount of gas. No abnormal positioning, dilation, or foreign material is identified.

Multiple loops of the small bowel are gas dilated with one sentinel loop exhibiting discrepant granular content compared to the remaining bowel in the caudal abdomen. This may indicate localized slowing or partial obstruction.

The colon is mostly empty, unremarkable in size and gas content.

Other abdominal viscera present within normal limits based on the limited evaluation by intestinal crowding.

## RADIOGRAPHIC DIAGNOSIS

- Extensive dilation of the small intestine with sentinel loop in the caudal abdomen.

## INTERPRETATION OF FINDINGS & FURTHER RECOMMENDATIONS

The radiographic findings suggest small intestinal gas dilation with a sentinel loop raising concern for complete or partial mechanical small intestinal obstruction. Definitive foreign material is not visualized, however, other causes of obstruction including nonopaque foreign material, intussusception, and other cannot be excluded. Abdominal ultrasound is strongly recommended for further evaluation of the gastrointestinal tract such as wall layering, peristalsis, and to identify potential mechanical obstruction.
