Neutered Male

RADIOGRAPHIC FINDINGS

AGE

The surrounding bony structures are within normal limits.

1.5 Years

No abnormalities of the extraabdominal soft tissues are noted. The abdominal wall is smooth and thin.

INTERPRETED BY

Nele Eley, DVM
Dr. med. Vet. DipECVDI

The serosal detail is maintained throughout the peritoneal and retroperitoneal space.

The liver is appropriate in position, size and presents uniform opacity.

The splenic head is in the anticipated position and within normal limits for size and opacity. The splenic body and tail are considered normal for position, size, shape and opacity.

HOSPITAL NAME

Lakeshore Woods
Animal Hospital

Both kidneys are seen and present with normal size, shape, delineation and opacity. The urinary bladder is in its anticipated position. No radiopaque calculi are noted throughout the upper and lower urinary tract.

REFERRING VET

Dr. Masoud

A mild amount of granulated soft tissue opaque material compatible with food is seen within the stomach.

The small intestinal loops are evenly distributed throughout the mid abdomen and with no evidence of abnormal dilation, plication, or radiopaque foreign material.

INVOICE

The cecum and colon are seen in their anticipated position and contain a moderate amount of gas.

52180

RADIOGRAPHIC DIAGNOSIS

- Gastrointestinal maldigestion pattern with no radiographic evidence of mechanical ileus.

INTERPRETATION OF THE FINDINGS & FURTHER RECOMMENDATIONS

The radiographic study of the abdomen reveals no signs of mechanical ileus. Functional ileus is considered likely; however, subileus is considered likely at this point. Consider further definition by means of ultrasound in case of persisting or recurring clinical signs.

The information and recommendations provided are based on the images presented by the referring veterinarian/sonographer. No evaluation can be communicated regarding pathology that was not visible in the image/video clips provided.

Thank you for this referral. If the clinical or image interpretation does not parallel your findings or if I can be of any further assistance please contact me.
