No ectoparasites seen Mentation: BAR Hydration: ~5% dehydration Fecal: Not performed today Diagnostic Testing Needed: CBC/CHEM/cPL, Abdominal radiographs Declined Diagnostics/Treatments: None Findings: 1) CBC: EOS 1.25 (0.06-1.23) 2) CHEM: AMYL 442 (500-1500) 3) cPL: Normal

SEX RADIOGRAPHIC STUDY OF THE ABDOMEN

SF Radiographs of the abdomen in two imaging planes are provided for review.

AGE RADIOGRAPHIC FINDINGS

5 Years, 8 Months The surrounding bony structures are within normal limits.

No abnormalities of the extraabdominal soft tissues are noted. The abdominal wall is smooth and thin.

INTERPRETED BY The serosal detail is maintained throughout the peritoneal and retroperitoneal space.

Sebastian Schaub, DVM The liver is appropriate in position, size and presents uniform opacity.
 Dr. med. vet. DipECVDI

The splenic head is in the anticipated position and within normal limits for size and opacity. The splenic body and tail are considered normal for position, size, shape and opacity.

HOSPITAL NAME Both kidneys are seen and present with normal size, shape, delineation and opacity. The urinary bladder is in its anticipated position. No radiopaque calculi are noted throughout the upper and lower urinary tract.
 DPC Veterinary Hospital

The stomach is in its anticipated position and is empty.

REFERRING VET The small intestinal loops are of even diameter and non-dilated, a small amount of gas is seen within the small intestinal loops and considered within normal limits.

Dr. Rivera The colon is seen in the expected position and contains a small amount of fecal material.

INVOICE RADIOGRAPHIC DIAGNOSIS

- Overall empty gastrointestinal tract

54983

INTERPRETATION OF THE FINDINGS & FURTHER RECOMMENDATIONS

DATE The empty gastrointestinal tract in combination with the presenting clinical is suggestive for gastro-enteritis. There is no evidence of radiopaque foreign material or signs for gastrointestinal mechanical obstruction. If clinical signs are refractory to therapy, recommend follow up radiographs or a complete abdominal ultrasound examination.
