RADIOGRAPHIC STUDY OF THE ABDOMEN

SEX

Radiographs of the abdomen in three imaging planes are provided for review.

NM

RADIOGRAPHIC FINDINGS

The surrounding bony structures are within normal limits.

AGE

2 Years, 2 Months

No abnormalities of the extraabdominal soft tissues are noted. The abdominal wall is smooth and thin.

INTERPRETED BY

Sebastian Schaub, DVM
Dr. med. vet. DipECVDI

The serosal detail is maintained throughout the peritoneal and retroperitoneal space.

The liver is appropriate in position, size and presents uniform opacity.

The splenic head is in the anticipated position and within normal limits for size and opacity. The splenic body and tail are considered normal for position, size, shape and opacity.

HOSPITAL NAME

DPC Veterinary
Hospital

Both kidneys are seen and present with normal size, shape, delineation and opacity. The urinary bladder is in its anticipated position. No radiopaque calculi are noted throughout the upper and lower urinary tract.

REFERRING VET

Dr. Rivera

The stomach is in its anticipated position and contains a mild to moderate amount of gas as well as a thin tubular, metal opaque body – approximately of equal length like the vertebral body of L1. The small intestinal loops are of even diameter and non-dilated, a small amount of gas is seen within the small intestinal loops and considered within normal limits.

The colon is seen in the expected position and presents with appropriate content.

RADIOGRAPHIC DIAGNOSIS

- Small tubular gastric foreign body

DATE

12-1-21

INTERPRETATION OF THE FINDINGS & FURTHER RECOMMENDATIONS

There is a small metallic gastric foreign body that might cause irritation of the stomach, inducing vomiting. There is no evidence of for gastrointestinal mechanical obstruction. As the foreign body is small, it might pass the gastrointestinal tract after feeding of sauerkraut. Recommend follow up

PATIENT

Franklin Bailey

radiographs to check if the foreign body passed the gastrointestinal tract, if not endoscopy might be used to remove the foreign body.
