

PATIENT PRESENTING CLINICAL SIGNS

Lily Spasiano Mass was surgically removed from Left Stifle on 4/13/22. Mass was determined to be a Nerve Sheath Tumor. Clean margins were not able to be accomplished. Before proceeding with amputation, CT Scan with MET check requested.

SPECIES COMPUTED TOMOGRAPHY OF THE NECK, THORAX AND HIND LIMBS

Canine A high resolution pre- and post-contrast CT study of the neck, thorax and the hind limbs are provided for review.

BREED COMPUTED TOMOGRAPHIC FINDINGS

Golden Retriever Neck
The osseous and surrounding soft tissue structures of the neck present no abnormalities.

SEX Thorax
The bony and surrounding soft tissue structures are within normal limits.

FS The sternal, cranial mediastinal and tracheobronchial lymph nodes are small elongated with a normal short-to-long-axis-ratio is < 0.5, the attenuation and contrast enhancement pattern is uniform and considered within normal limits.

AGE 9 Years, 3 Months The cardiovascular structures including the pulmonary vasculature are within normal limits.

The bronchial tree presents with regular branching and tapers uniformly towards the periphery as expected, the bronchial walls are thin and smooth. The bronchus-to-artery ratio is within normal limits.

INTERPRETED BY The lung parenchyma presents the expected architecture and attenuation behavior.

Sebastian Schaub, DVM Dr. med. vet. DipECVDI Small incidental gas pockets are seen within the esophageal lumen, there is no evidence of abnormal dilation.

HOSPITAL NAME Stifle joints

Mobile Pet Imaging CFL Both stifle joints present smooth osseous margins and without signs of intracapsular soft tissue swelling.

The surrounding soft tissue structures of both stifle joints are within normal limits.

REFERRING VET COMPUTED TOMOGRAPHIC DIAGNOSIS

- Borecky
- History of excised nerve sheath tumor region of the left stifle joint, no abnormalities of the surrounding soft tissue structures of the stifle joints are appreciated.
 - Structural normal thorax, no evidence of pulmonary metastatic disease
 - Normal neck
