

PATIENT **PRESENTING CLINICAL SIGNS**

Crash Whittington History: P has a large growth on the base of the tail that was biopsied and came back as a spindle cell sarcoma, low grade. Radiographs obtained for thoracic met check prior to proceeding further with debulking of the mass and proceeding with radiation and/or metronomic chemotherapy.

SPECIES Abnormal PE/Chem/CBC/UA Results: Large growth at the base of the tail approx 8 cm diameter H/L auscult - WNL.

Canine

RADIOGRAPHIC STUDY OF THE THORAX

BREED Radiographs of the thorax in three imaging planes are provided for review.

Mixed Breed **RADIOGRAPHIC FINDINGS**

The surrounding bony structures are within normal limits.

SEX The extrathoracic soft tissues present homogeneous without abnormalities.

Spayed Female

The heart is of normal size and shape, there is no evidence of cardiac chamber or vascular enlargement. The pulmonary vasculature is within normal limits.

AGE The cranial mediastinum presents the expected soft tissue opacity. The mediastinal width is less than twice the width of the vertebral column at the same level.

7 Years

The trachea is normal in diameter and presents the anticipated course. The luminal outline of the trachea is smooth.

INTERPRETED BY The bronchial tree presents with thin walls and tapers uniformly towards the periphery as expected. The lung parenchyma presents the expected architecture and opacity; the intrapulmonary vascular branching is seen up to the third order lung vessels.

Sebastian Schaub,
DVM Dr. med. vet.
DipECVDI

The diaphragm is well delineated with even surface and the expected mild cranial bulging of the diaphragmatic cupola.

HOSPITAL NAME **RADIOGRAPHIC DIAGNOSIS**

All Creatures AH
Stuart

- Normal thorax

INTERPRETATION OF THE FINDINGS & FURTHER RECOMMENDATIONS

REFERRING VET The current radiographic study of the thorax is negative for pulmonary metastatic disease.

Tammie Robinson

The information and recommendations provided are based on the images presented by the referring veterinarian. No evaluation can be communicated regarding pathology that was not visible in the image/video clips provided.

INVOICE 13267 Thank you for this referral. If the clinical or image interpretation does not parallel your findings or if I can be of any further assistance please contact me.
